The Census: FROM EXCLUSION TO EQUALITY

Resources + Representation = REAL VOICE & POWER

The Census was designed as a tally to distribute political power and public money unequally and unjustly:

- Counted every white person as a full person
- Counted enslaved people of African descent as 3/5 of a person
- Did not count Native Americans at all

We want to ensure that ALL PEOPLE, regardless of race, age, or immigration status ARE COUNTED so we have a fair and accurate count.
What Can You Do?

Ensure your organizations encourage people to complete the Census and **Count All Kids #BeInThatNumber**

Set up a computer at your facility for people to complete the Census and use volunteers to help people complete their Census information.

Reassure people that Census information cannot be shared with any other agency.

Talk to mixed families about counting everyone in the residence.

Visit with people who you know are shut-in or who don’t have internet and help them complete the Census either through a smart device or via phone.
