# Power Coalition: action alert

## Policy Guide for Equity and Opportunity

February 1, 2018

### Louisiana Policy Guide for Equity & Opportunity

Power Coalition, a statewide civic engagement table in Louisiana that is working to shift power back to the people, fights policies that hurt our state's families, and increases voter participation by building support structures for community activism. The Louisiana Guide for Equity and Opportunity is a comprehensive primer on policy/advocacy in Louisiana. This document covers the key areas of:

- **Civic Engagement**
- **Primer on Louisiana**
- **Our advocacy work on the issues of Criminal and Juvenile Justice, Economic Opportunity and Work**
- **The Frame for our Statewide Agenda**

Our goal for this document is to first create a starting place to guide conversations and inquiries on how to create equitable communities using the tools we currently have while also allowing for innovative ideas on how to create better policies. The guide is available for download at the Power Coalition website:
