Governor: Democrat

In the fall of 2023, there will be a **Gubernatorial election** and Governor John Bel Edwards is ineligible to run for a third consecutive term.

In the Senate, Republicans currently have a supermajority, which is when they control more than 2/3 of the seats in the chamber.

In the House of Representatives, Republicans have almost enough seats to claim a supermajority.

If a party all votes together when they have a supermajority, it means they have enough votes to overturn gubernatorial vetoes or to act on some budget and tax provisions **without requiring any input from the other party.**

Contacting Your Legislator

Legislators are elected by people in their community to represent their interests in the law making process. Legislators vote on a variety of laws, from criminal justice, to environmental protection, and funding for our schools. **It is important for your legislator to hear directly from you about the issues that you care about!**

You can contact your legislator by calling or emailing them to share your perspective. You do not need to be an expert to contact your legislator, **you just need to share why it is important to you and your community.**

Find Your Legislator Here:

pcej.org/FindMyLegislator

Plan: What are you contacting your legislator about? Is there a specific bill that you want them to vote yes or no on? What is the story you want to tell them in your phone call or email? You can write down a script for yourself so you don't forget your main point!

Power Coalition often has a "OneClick" campaign to contact legislators about bills that we care about. This makes it easy for you to contact your legislator directly using a profiled form where you can add your personal story!

Power Tips

When you contact your legislator, you should **identify yourself as one of their constituents** (someone who lives in their district) and then **explain why you are contacting them.**

Your goal is to either persuade them to support or oppose a particular issue.

Alternatively, **it is important to thank your legislator when they take a vote that you support** as a reminder that they are representing the voices of their community members.

Call: Call your legislator using the phone number listed on the Louisiana legislative website. You may not be able to speak to them directly, but you can leave a message.

Email: Your legislator has a state email that you can contact, this can also be found on the Louisiana legislative website. Your email should have the same information you would include in a phone call. Identify yourself as a constituent and share why you are contacting them.

In Person: Legislators are typically in the State House in Baton Rouge on days that votes are happening. Though they do not all have individual offices, they can often be found between committee meetings or before going to the floor for a vote.

When the legislative session is not happening, many legislators attend events in their districts and this can be a time to speak with your legislators about local matters.

Delivering Testimony in Committees

There are limited opportunities during the legislative process when the public is able to go on the record and share information with legislators, but **when a bill is being heard in committee, the public can provide written statements ahead of time or can provide in person testimony.** Both of these options will go into the record and are a great opportunity to share your perspective with legislators before they vote on a bill.

Legislators want to hear from constituents! They are there to represent your voice in government and sharing your authentic story and additional information is a great way to encourage legislators to support good legislation or stop bad bills from moving forward.

Providing Testimony In Person

To address the committee, you must complete a witness card stating your name, agency, organization or other interest represented, address, and the bill number for which you would like to provide comments. The witness card will also indicate whether you are there in support of the bill, in opposition of the bill, or there for informational purposes only.

All testimony is delivered from the witness table in front of the committee after you are recognized by the chairman. You will deliver your testimony into the microphone at the witness table. **We recommend that you prepare your testimony ahead of time, have it written down, and have multiple copies available for members of the committee.**

Legislators may ask you questions after your testimony to help clarify your statements or based on information that you bring up.

Written Statements

If you do not feel comfortable providing testimony in person or are unable to go to Baton Rouge, you may submit a written statement. **The written statement should be sent to members of the committee and committee staff 24 hours ahead of the hearing and should include your name, contact information, and a clear explanation of your position on the legislation.**

If you are providing the written statements to the committee in Baton Rouge, you should have the number of copies to distribute to each committee member, two staff members, and the committee administrative assistant. At the committee meeting, you should give the written statements to the administrative assistant for numbering and distribution if necessary.

Best Practices

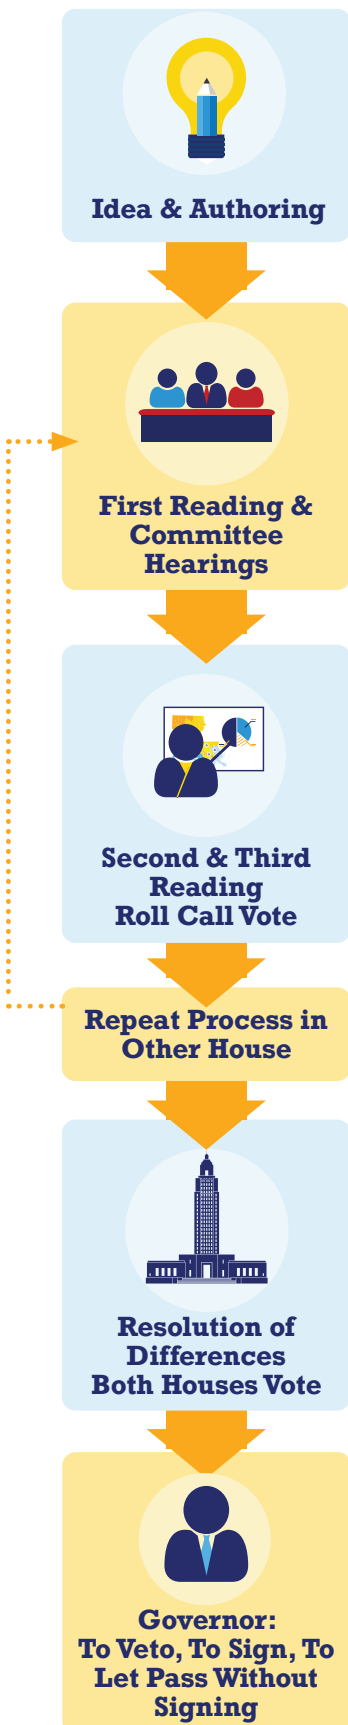

- ➔ If you use any statistics or other data, share where you got the information.
- ➔ Keep your statement on the shorter side—**what is the main takeaway for legislators?**
- ➔ Anticipate what questions legislators might have for you so that you can answer them.
- ➔ **Do not argue** with members of the committee, instead lay out your comments in an easy to understand way so that you can convince them.

Guidelines for effective testimony (written and spoken):

1. Identify yourself and the organization you represent (if applicable)
2. Greetings
3. **Clear presentation of your position:** State your position as “for” or “against” the proposed bill; identify the bill name and number
4. **Factual arguments and data** as evidence to support your position, if available
5. **Personal story or anecdotes** to demonstrate your position. This is often the most powerful part.
6. **Restate/review your position** at the end of your testimony
7. **Thank the committee** or task force for the opportunity to speak

How a Bill Becomes a Law

Glossary & Overview

IDEA All legislation begins as an idea. Ideas can come from anyone. The process begins when someone persuades a Senator or Representative to author a bill.

AUTHOR A legislator sends the idea and sometimes the language for the bill to the Legislative staff where it is drafted into the actual bill. The drafted bill is returned to the legislator for introduction.

FIRST READING A bill's first reading is when the Clerk reads the bill number, the name of the author, and the descriptive title of the bill in the chamber while the legislators are on the floor. The bill then remains on the docket until the second reading.

COMMITTEE HEARINGS The bill then goes to the Senate or House Rules Committee where it is assigned to the appropriate standing committee for its first hearing. Bills are assigned according to subject area. During the hearing, the author presents the bill, people testify in support or opposition of the bill, and the committee acts on the bill. The committee can pass the bill, pass the bill as amended, or defeat the bill. It takes a majority vote of the membership of the committee to pass a bill. Bills which require money must also be heard in the Senate Finance committee, or House Appropriation Committee.

SECOND AND THIRD READING Bills passed by committees are read a second time in the house of origin and then placed in the Daily Digest on Third Reading. When a bill is read the third time it is explained by the author, discussed by the Members and voted on by a roll call vote. Bills generally require a majority vote of the body to be passed out of the chamber.

REPEAT PROCESS IN OTHER HOUSE Once the bill has been approved by the house of origin it proceeds to the other house where the procedure is repeated.

RESOLUTION OF DIFFERENCES If a bill is amended in the second house, it must go back to the house of origin for concurrence, which is agreement on the amendments. If agreement cannot be reached, the bill moves to a two house conference committee consisting of two Senators and two Representatives to resolve differences. If a compromise is reached, the conference report is voted upon in both houses.

GOVERNOR The bill then goes to the Governor. The Governor has three choices. He or she can sign the bill into law, veto the bill, or allow it to become law without his or her signature. A governor's veto can be overridden by a two-thirds vote in both houses. Most bills go into effect on August 1 of the next year. Urgency measures take effect immediately upon being signed by the Governor and chaptered by the Secretary of State.

Attending Committee Meetings

Attending Committee Meetings

- ➔ **Senate Committee Rooms A-B,C,E, and F** are located on the ground floor in Duval Hall. Access to the John Hainkel Room is down a set of steps at the end of Duval Hall. An elevator is available.
- ➔ **Can't clap, snap, or cheer** in chamber or committee rooms.
- ➔ **Before testifying you should plan.**
- ➔ In committee meetings bills will either be: voluntarily deferred, involuntarily deferred, voted favorably, or unfavorably.
- ➔ **You may not approach the desk** to speak to committee members.
- ➔ The committee hearing is an opportunity to inform legislators of your position regarding pending legislation or just to observe the legislative process. However, the length of the meeting agenda and the number of people who wish to testify may require the imposition of time limitations. If you are with a group, it is advisable to appoint a spokesperson.
- ➔ Please place ALL cell phones and other electronic devices on vibrate mode. You may take phone calls in the hallway only, not in committee rooms.
- ➔ Food and drinks are prohibited in committee hallways and committee rooms.
